Develop CG Guidance to Verify Ballast Water Discharge Standards Compliance

Mission Need: Procedures to verify federal ballast water discharge standards.

**Project Objectives:**
- Describe CG requirements and future capabilities gaps.
- Companion project provides suitable potential technology solutions and tiered approach to numerical BDWS enforcement.
- Identify policy and non-material solutions that meet requirements.
- Develop guidance for CG enforcement of the new BWDS.

**Sponsor:** CG-5PS
**Stakeholder(s):** USEPA-GLNPO, CG-CVC-1, CG-CVC-2

**Key Milestone / Deliverable Schedule:**
- Project Start: 15 Dec 11
- Guidance to Verify Ballast Water Discharge Standards Compliance: May 13
- Project End: Aug 13

**Expected Benefit:**
Improved Doctrine/CONOPs/TTPs

**Notes:**
