

Welcome to CRUSER

The CRUSER Community of Interest (CoI) is open to anyone with an interest in Unmanned Systems with the goal of building a collaborative environment and community of interest for the advancement of unmanned systems education and research. Although the CRUSER CoI is based at the Naval Postgraduate School in Monterey, CA the majority of our members are located all over the world and come from the Department of Defense, other Federal/State/Local Government agencies, Academia, Industry, and International partners.

From Technical to Ethical...From Concept Generation to Experimentation...

The Naval Postgraduate School's Consortium for Robotics and Unmanned Systems Education and Research (CRUSER):

- Reaches across the Navy, Marine Corps, Department of Defense, Academia, and Industry
- Collaborative environment for the advancement of unmanned systems education and research endeavors
- Community of interest for unmanned systems in military and naval operations
- Encompasses the successful research, education, and experimentation efforts in unmanned systems
- An inclusive community for all disciplines
- Concept Generation workshops for a naval mission
- Technical Symposia to address naval missions, and an at-sea experiment to test selected technologies
