

SEAP for high school student interns

ONR's Science and Engineering Apprenticeship Program (SEAP)

SEAP student applications closed

Office of Naval Research's Science and Engineering Apprenticeship Program (SEAP) provides an opportunity for students to participate in research at a Department of Navy (DoN) laboratory during the summer.

The goals of SEAP are to encourage participating students to pursue science and engineering careers, to further their education via mentoring by laboratory personnel and their participation in research, and to make them aware of DoN research and technology efforts, which can lead to employment within the DoN.

SEAP provided competitive research internships to over 265 high school students this year. Participating students spend eight weeks during the summer doing research at 24 DoN laboratories.

The Naval Postgraduate School hosted 39 high school students during the summer of 2015. For more information, including deadlines and application details for summer 2016, visit <http://seap.asee.org>

NPS faculty participation information:

- **Duration** - 8 weeks - start dates TBD.
- **Cost** - Must be R&D Funds - FY15 costs are:
\$3300 for first time interns.
\$3800 for returning interns.
- **Deadlines**
Faculty - [Project Description](#) (download link) to Alison Kerr
Student - applications must be submitted via [SEAP website](#). The site opens in early October for the following summer.
- **NPS POC** - steminternships@nps.edu
