

# Mine Warfare Technology Symposium

## Snapshot

The [Mine Warfare Technology Symposium](#) was held 6-8 May 2014 at the Embassy Suites in Seaside California, hosted by NPS. Several excellent activities related to Wave Glider occurred.

- This year's theme: MINES, COUNTERMINE, and UNMANNED SYSTEMS – SUSTAINING our UNDERSEA DOMINANCE!
- Keynote address by Bill Vass, CEO of [Liquid Robotics](#)
- [NPS Wave Glider Project Operations](#) overview briefing by Don Brutzman, NPS
- Discussions regarding [Liquid Robotics](#) support for a number of important Navy programs

## Upcoming

- Plans are in the works to display an SV-3 WaveGlider on Wednesday June 18 as part of the Coastal Trident 2014 exercise, 16-20 June 2014 at the NPS [Center for Asymmetric Warfare \(CAW\)](#) in Port Hueneme California. Data links will also be shown to monitor in-water operations off Hawaii using Web connections.

Wave Gliders for Mine Warfare!
