A personalized, adaptive learning platform.

CHUNK Learning breaks away from the predictable pattern of traditional education models and provides content delivery that respects the different capabilities, learning styles, and approaches to problem-solving of every learner. Students are empowered by a system that ensures learning is efficient, flexible, and respectful of their time.

- **Offers** intense, short, and focused educational modules
- **Stimulates** interest and demonstrates relevance of topics
- **Integrates** new information with learner’s pre-existing knowledge
- **Provides** personalized and individualized education
- **Optimizes** content and methodology delivery to meet the needs of each learner

Heuristically discover and learn based on personal background and interests.

CHUNK Learning’s recommendation system uses information provided in the learner’s profile to automatically recommend the most relevant-to-you content, personalizing the learning journey. This tailored teaching reacts to the needs of students and makes it easier for learners to excel.
