Logging into the Sakai Collaborative Learning Environment

Step one is to navigate to cle.nps.edu in the browser of your choice. [https://cle.nps.edu/](https://cle.nps.edu/)

Once there, you'll be asked to decide between logging in as an NPS User, or a Non-NPS User. The categories below will help you determine which you should use.

### NPS USERS

If you are a registered student, whether resident or DL, or you are a faculty member, staff, or contractor with an NPS network account and email address, you'll use the gold NPS Users button to log in. Your username is generally your first.last or the first part of your email address, before the @nps.edu. Your password will be the same as it is for any other NPS-related account access.

### Non-NPS Users

If you are a member of one of our external partners, or a participant in a one-time course, you will receive an activation email for your account and you'll use your full email address to log in. Your password will be set up by you during your account activation process.

Please note that we have been having issues with gmail addresses not getting activation emails and system and course announcements. If you used a gmail to enroll and are having issues, please contact us at clehelp@nps.edu.
